

**There is a large pool of talented candidates within Westminster who have disabilities or health conditions. Often employers miss out on recruiting the best person for their vacancies because they are not accessing this pool.**

**Recruit London's Specialist Workplace Coordinator supports Job-seekers who may need extra help to get back to work including those with physical or mental disabilities, learning disabilities or who have experienced homelessness.**

**The Recruit London Mission:**

**To work with Westminster employers to provide a simpler and quicker route to sustainable work for local people**

- SOURCE**      We find local candidates with great potential who are ready for work or work experience opportunities.
- SCREEN**      We will meet, get to know and match candidates to appropriate employers or opportunities and only introduce you to candidates who are a good fit with your business.
- TRAIN**      We deliver effective tailored training to the candidates before you meet with them; we help them to prepare for their chosen career.
- PLACE**      Successful candidates are then placed into paid or unpaid opportunities.
- MENTOR**      Workplace mentoring is provided to every candidate. This ensures they remain in positions and that both you and they have the support needed.

---

**Recruit London is delivered in partnership by Cross River Partnership, The Crown Estate, Westminster City Council, the New West End Company and Capital & Counties CG Ltd. It has successfully supported over 1,000 Westminster residents into work with flagship stores, hotels and restaurants across the West End since 2009.**

Work with a specialist broker who understands your sector and business needs

Locally sourced candidates who fit well within your business
