Clean Air Village Solution

Cross River Partnership is excited to be continuing the work in Shepherd's Bush for Clean Air Villages for the third year. Previously we have worked with hotels on looking to consolidate suppliers, promoting the Parcels Not Pollution for businesses in the area.

This year as part of the project there are plans to have a **free** shared electric van be available for business to use for local journeys. If your business is now looking at delivering out or moving stock this could be a useful alternative.

If you are interested in taking advantage of [this please answer this short survey on your current situation](#) or alternatively [email](#) or call Laura who leads on this area.
