CLEAN AIR VILLAGES

Clean Air Village Solution

[Cross River Partnership](#) is pleased to be working with the [City of London Corporation](#) on a designated Air Quality Focus Area (AQFA) that runs from Houndsditch to Monument surrounding Liverpool Street. This Central London hub is home to a plethora of businesses and is also a popular site for tourists and visitors to stop by London's fabulous bars and restaurants. Beyond businesses, there are a range of religious institutions and community groups in the area, which inspired the focus of this [Clean Air Village](#) (CAV) solution.

In partnership with the City of London Corporation, the CAV3 project is launching its first-ever Air Quality Ambassador programme. Open to community members, employees and residents of the AQFA, volunteer Ambassadors will go through Air Quality Training and will work closely with a CAV3 Project Officer to develop local air quality solutions.

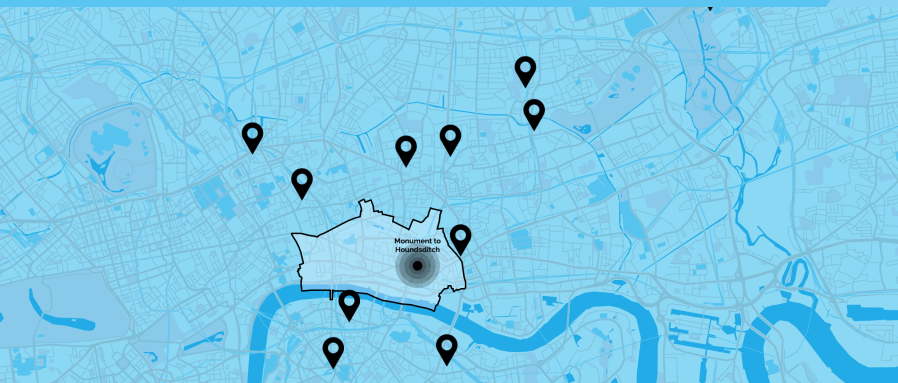

Interested in hearing more about the AQ Ambassador programme, check out the info page [here](#) or contact the Project Officer below.
