Q/A session after each presentation
Introduction to Cross River Partnership

Susannah Wilks, CRP Director
Our Vision

**People**
Working with engaged people connecting stakeholders to successfully collaborate and deliver

**Places**
Deliver in great places, sharing best practice whilst ensuring all businesses are supported to grow sustainably

**Projects**
Deliver innovative projects for partners encouraging businesses to shift from incremental to permanent change, whilst inspiring others to do more at pace

Working towards sustainable businesses, improving air quality.
Central to our Projects

Lucy Saunders, Healthy Streets
Cross River Partnership is working at pace to help support communities, Local Authorities and private bodies with their Covid-19 response.

**Physical Interventions**

**Monitoring**

**Guidance**
Transport for London: Covid-19 Response
Tomos Joyce on behalf of Andrew Hatch, TfL
TfL: safe travel measures

Measures to help enable social distancing are being put in place wherever possible.

Further measures to prevent crowding, such as:
• Operating stations differently through restricting entry if necessary.
• New one-way and queuing systems will be in operation at some stations.
TfL: safe travel measures

Wear a face covering on public transport
This will help to keep everyone safer, when it is hard to maintain social distancing.
Let’s make sure every journey matters.
#LondonTogether

Always wash your hands before and after you travel
This will help to keep everyone safer, including our staff.
Let’s make sure every journey matters.
#LondonTogether

Maintain social distancing when travelling
Stay 2 metres apart, wherever possible.
This will help to keep everyone safe, including our staff.
Let’s make sure every journey matters.
#LondonTogether

Travel off-peak to make more space
Fewer people on the public transport network, especially during the busy morning and evening peaks, will help with social distancing.
Let’s make sure every journey matters.
#LondonTogether
TfL have introduced an **enhanced cleaning regime**.

This includes:

- Using additional hospital-grade cleaning substances that kill viruses and bacteria on contact.

- New anti-viral disinfectant that protects for up to 30 days.

- Key interchanges being cleaned more frequently – including during the day.

- All regular ‘touch point’ areas on buses, such as poles and doors, being wiped down with a strong disinfectant every day.
Hundreds of **hand sanitiser points**

- TfL have started to introduce sanitiser points across the transport network and these will soon be installed at every Tube and TfL Rail station.

- They will also be installed in all bus stations, Victoria Coach Station, TfL river piers, the Woolwich Ferry, Emirates Air Line and at all London Overground and DLR stations where it’s safe and secure to do so.
TfL: Streetspace

TfL are working with London's boroughs to identify places where temporary changes are needed to support social distancing, or that would benefit from walking and cycling improvements.

TfL are focusing on three key areas:

1. Quickly building a **strategic cycling network**
2. **Changing town centres**
3. **Reducing traffic on residential streets**
• Measures to help enable social distancing are being put in place across the network.

• The network is clean and as safe to use as it’s ever been.

• Streetspace schemes are being installed at pace across London – enabling more active travel.

Questions
Please direct to Tomos so he can send them on to TfL’s Local Communities & Partnerships team.

Marketing
Hi-res versions of collateral used in this presentation can be provided upon request.
CRP’s Healthy Streets Everyday

We deliver 3 key workstreams:

1. Streetscape Improvements
   - Parklets
   - Greening Infrastructure
   - Cycle / walking routes

2. New Traffic Regulations
   - School Streets
   - Play Streets

3. Car Free Behaviour
   - Cycle Skills
   - Journey Planning
How HSE is helping?

Any Questions?
Building your confidence to Cycle and Walk
Lucy Atkinson, Sustrans
About Sustrans

Our vision is a society where the way we travel creates healthier places and happier lives for everyone.

We do this by making it easier for people to walk and cycle.
Benefits of active travel

- Avoids fares
- Gets you there faster
- Is cardiovascular exercise
- Supports mental health
- Is good for the planet

Delivering London’s Future Together

Making trips active and safe

The school run
Local shopping
Journeys to work
Rides for leisure
How we work with local authorities
Case study: Space to Move tool

1. Temporary interventions uploaded
2. Public submit photographs and feedback
3. Local authorities are given summary of feedback
4. Boroughs may use feedback to make improvements
Case study: food bank deliveries on cycles

This is Dan…

…and this is Iris
Case study: route planning for workplaces

Quiet route guidance helps to support people to travel schools and workplaces.
Case study: cycle training

Building confidence
Getting started

- Getting a cycle safe for the road
- Plan ahead – routes and timing
- Practice journeys and cycle training
- Making cycling social
How Sustrans can help

Tips and information on our website

Partnership working with community groups

Bespoke travel planning for businesses or workplaces

Design support
Sustrans is the charity making it easier for people to walk and cycle.

We connect people and places, create liveable neighbourhoods, transform the school run and deliver a happier, healthier commute.

Join us on our journey.

Questions?

@sustranslondon

@lucyvatko
Clean Air Route Finder (CARF)
Sefinat Otaru, CRP

CROSS RIVER PARTNERSHIP
Delivering London’s Future Together
What is CARF?

Navigates
• Pedestrians
• Cyclists

Quantifies
• User’s exposure
• Travel time and
• Distance

Displays
Clean Air Walking Routes
• Breathe easier
• Get active
• Explore London
How to use CARF?

1. Go to www.cleanairroutes.london

2. Enter starting point & destination, then mode of travel

3. Up to 3 routes generated
CARF in Action

Normal Route

Kings Cross St Pancras Station to Euston Station

Clean Air Route

Cross River Partnership

Delivering London’s Future Together
Convenience of CARF

- Identify your routes
- Shorten public transport journeys
- Explore cycling into central London
What the update will include:

1. Breakdown of user’s exposure along the routes

2. Additional routes
   - Key tube stations
   - London’s car-free zones
   - Other areas of interest

3. Travel time to London’s Railway Termini
