One delivery per week, distributed on foot to local businesses

## RESULTS

1x a week delivery

Hospitality Source

Average of 40% reduction in costs for customers

Zero emission deliveries improve local air quality

Reduced pressure on storage space

Generates less waste to be collected

One concentrated bottle replaces 33 bottles

# WHAT IS THE CLEAN AIR VILLAGES PROGRAMME?

A Central Government-funded programme which aims to enable and support businesses to reduce emissions from deliveries of goods and services whilst saving them time and money. In its second year (2019-20) the project worked across 13 air pollution 'hotspots' (villages) within seven London boroughs. In 2020-21 the project is expanding into new areas as part of Clean Air Villages 3.

As part of Clean Air Villages we work with businesses and Local Authorities to find out how they can be part of the solution to improving air quality.

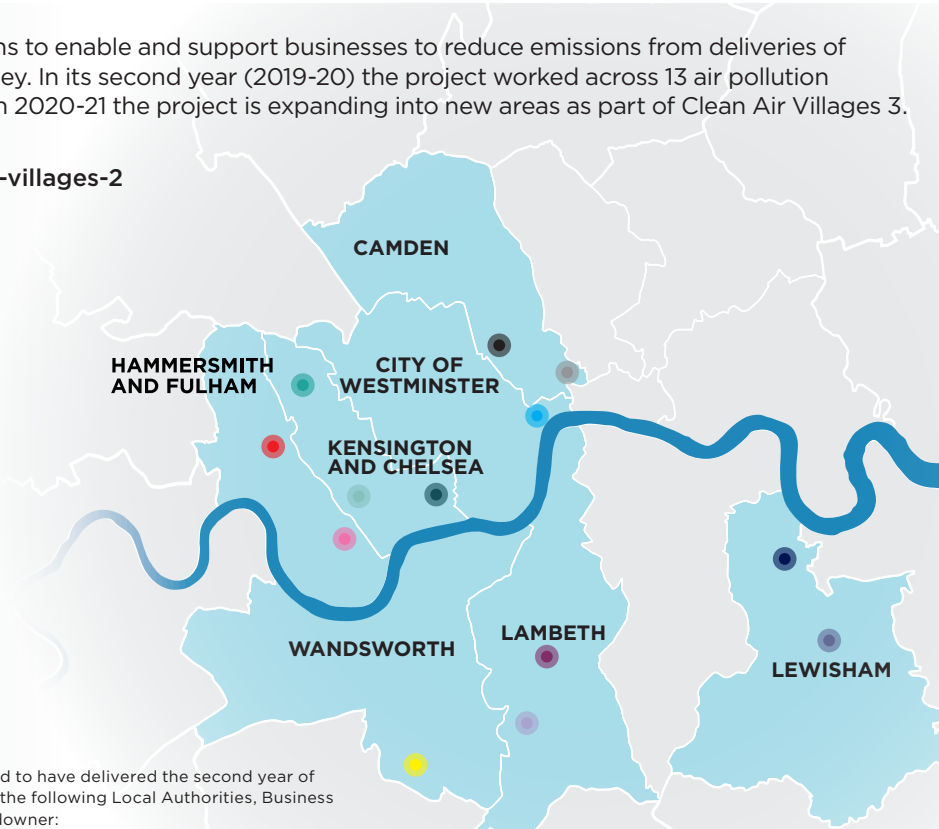

## Which solutions could work for you?

-  Switching to an electric vehicle
-  Using a cargo bike to deliver
-  Consolidating your suppliers
-  Installing electric vehicle charging points
-  Featuring on our CRP Clean Air Villages Directory
