Cross River Partnership (CRP) is a non-profit impartial partnership organisation delivering projects that contribute positively to the social, environmental and economic health of London.

Our work has continued throughout the Covid crisis and we are committed to achieving a green recovery that benefits all Londoners.

**We are experts in delivering positive change.**

Our projects have collaborated across public, private, voluntary and community sectors for over 25 years.

**We are London’s largest partnership delivery organisation.**

Our partners range from Local Authorities and Business Improvement Districts, to Landowners and Strategic Agencies.

**We are all about empowering People, to deliver innovative Projects, that create great Places.**

Our work transects themes such as Place Making; Health and Wellbeing; Addressing Inequalities; Sustainability; Air Quality; Freight, Transport and Active Travel; Energy; Environment; Culture; and Lighting.

**We are forward thinkers, embracing collaboration for a sustainable future fit for all.**

We work with our partners to shape London’s fabric and operation, supporting residents, businesses and visitors to all thrive in the city.

## 02 Our vision

## 02 Our vision

CRP's vision is to work with its partners to address the grand challenges of our time and shape the London of tomorrow. We aim to inspire collaboration across London and beyond, and to deliver projects that others may then use as a blueprint to follow. We are a test bed for new ideas and are committed to positive change for all - **Delivering London's Future Together.**

Covid-19 has certainly posed some of the greatest challenges in modern times, affecting the lives of everyone across the world. 2020 will be associated with hardship, loss and uncertainty. However, it will also be remembered for the incredible resilience of communities and businesses who have come together to build back better, prioritising sustainable, inclusive, and prosperous agendas for a brighter future.

Over the past year, **CRP's four core values of: collaboration, innovation, enterprise, and resilience** have embodied each and every one of our projects and team members. CRP adapted its project services to be of most use to business, community and health sectors alike during the Covid-19 crisis. From cargo bike deliveries of food bank parcels and emergency medical supplies, to transforming our streets and transport choices, to digitising our advice services including via fortnightly [LiveShare webinars](#), to publishing on-line guidance toolkits, and to supporting our colleagues via fun and frequent health and wellbeing activities.

We have all come together to tackle these challenges head on and we have much to show for our collaborative efforts with our partners. The 2020 / 2021 Annual Report and 2021 / 2022 Business Plan showcases CRP and its partners' achievements over the past year, as well as setting ambitious targets and commitments, some of which are already well under way, to meet in the year ahead. Many of CRP's projects and deliverables have been hyperlinked throughout this document. Click through to find out more about the innovative work we do with our partners.

If you would like to find out more about Cross River Partnership, or if your organisation would like to partner with us, please do not hesitate to contact us.

- Greater London Authority
  - Groundwork London
  - London and Partners
  - Network Rail
  - Port of London Authority
  - Transport for London

## 04 Testimonials

The City Hall team and I are hugely grateful to the Cross River Partnership for their innovation and action on Air Quality and Healthy Streets projects, which is really helping to deliver on the Mayor of London’s objectives.

**Shirley Rodrogues**  
Deputy Mayor for Environment and Energy in London

This year, the CRP team, partners, and funders have all definitely exceeded themselves in terms of their enterprising and proactive responses to all the challenges thrown at us. I look forward to collaborating ever more closely to support London in emerging from COVID, fairer, cleaner, greener and safer.

**Susannah wilks**  
CRP Director

At CRP, we bridge the gaps that exist amongst our public and private sector partners. Working here gives me the opportunity to be challenged and be creative when coming up with solutions to issues.

**Kate Fenton**  
CRP Project Manager

We wanted to be part of the cargo bike scheme because we thought that a local, energy efficient delivery system was a great opportunity for our business. Since the pandemic it’s allowed us to outsource our local deliveries, rather than do them ourselves.

**Katie Littlewort**  
Unwined Bars Operations Manager

One of the things I absolutely love about being a part of is this team is the way in which we work across borough boundaries, the fact that there are so many different organisations involved, and the fact that it’s been such a resilient organisation through this extraordinary time.

**Simon Pitkeathley**  
Cross River Partnership Co-Chair

Now more than ever, we need to work collectively to build back better, and Cross River Partnership is the strong and resilient organisation to help us all to do that.

**Wendy Hyde**  
Cross River Partnership Co-Chair

Here at CRP, we are working to improve London, and sometimes beyond, making it a better place for the people who live here, who work here, and who visit.

**Sefinat Otaru**  
CRP Project Manager

# 05 Achievements 2020/21

## Healthy Streets Everyday

New interactive Healthy Streets Everyday [website](#) launched

5

inspirational case studies created

3

guidance documents launched

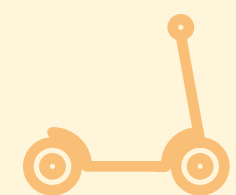

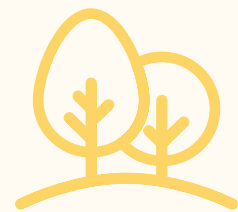

School Streets Hotline, Toolkit and School Streets support delivered

Doctor Bike sessions funded, including those associated with the Royal London Hospital

2

Parklets funded

Educational activities about 'Car Free Days'

Clean Air Day pollution sensors funded

## CRP-wide achievements

2

new partners join CRP

Initiated relationships with

5 Universities

17

LiveShare online webinar events hosted attracting

866

attendees from across 12 countries.

x17

supplementary toolkits created

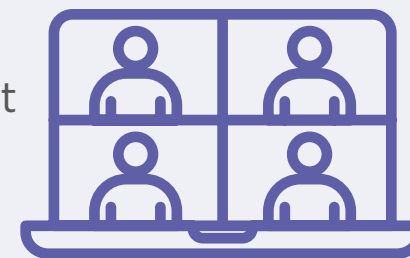

CRP team has presented partner work across multiple high-profile international events e.g.

- World Car Free Day Summit
- Imperial College London Urban Transport Air Pollution series
- CIEH - Environmental Protection Conference

Launch of CRP's first podcast

CRP team worked virtually for almost the whole of the financial year

CRP team wellbeing activities have clocked over

3 million

steps as part of our Keep Active Step Count Challenge between October and November 2020
