

CRP CONVERSATIONS

IMPROVING AIR QUALITY
BY ENHANCING RIVER &
RAIL

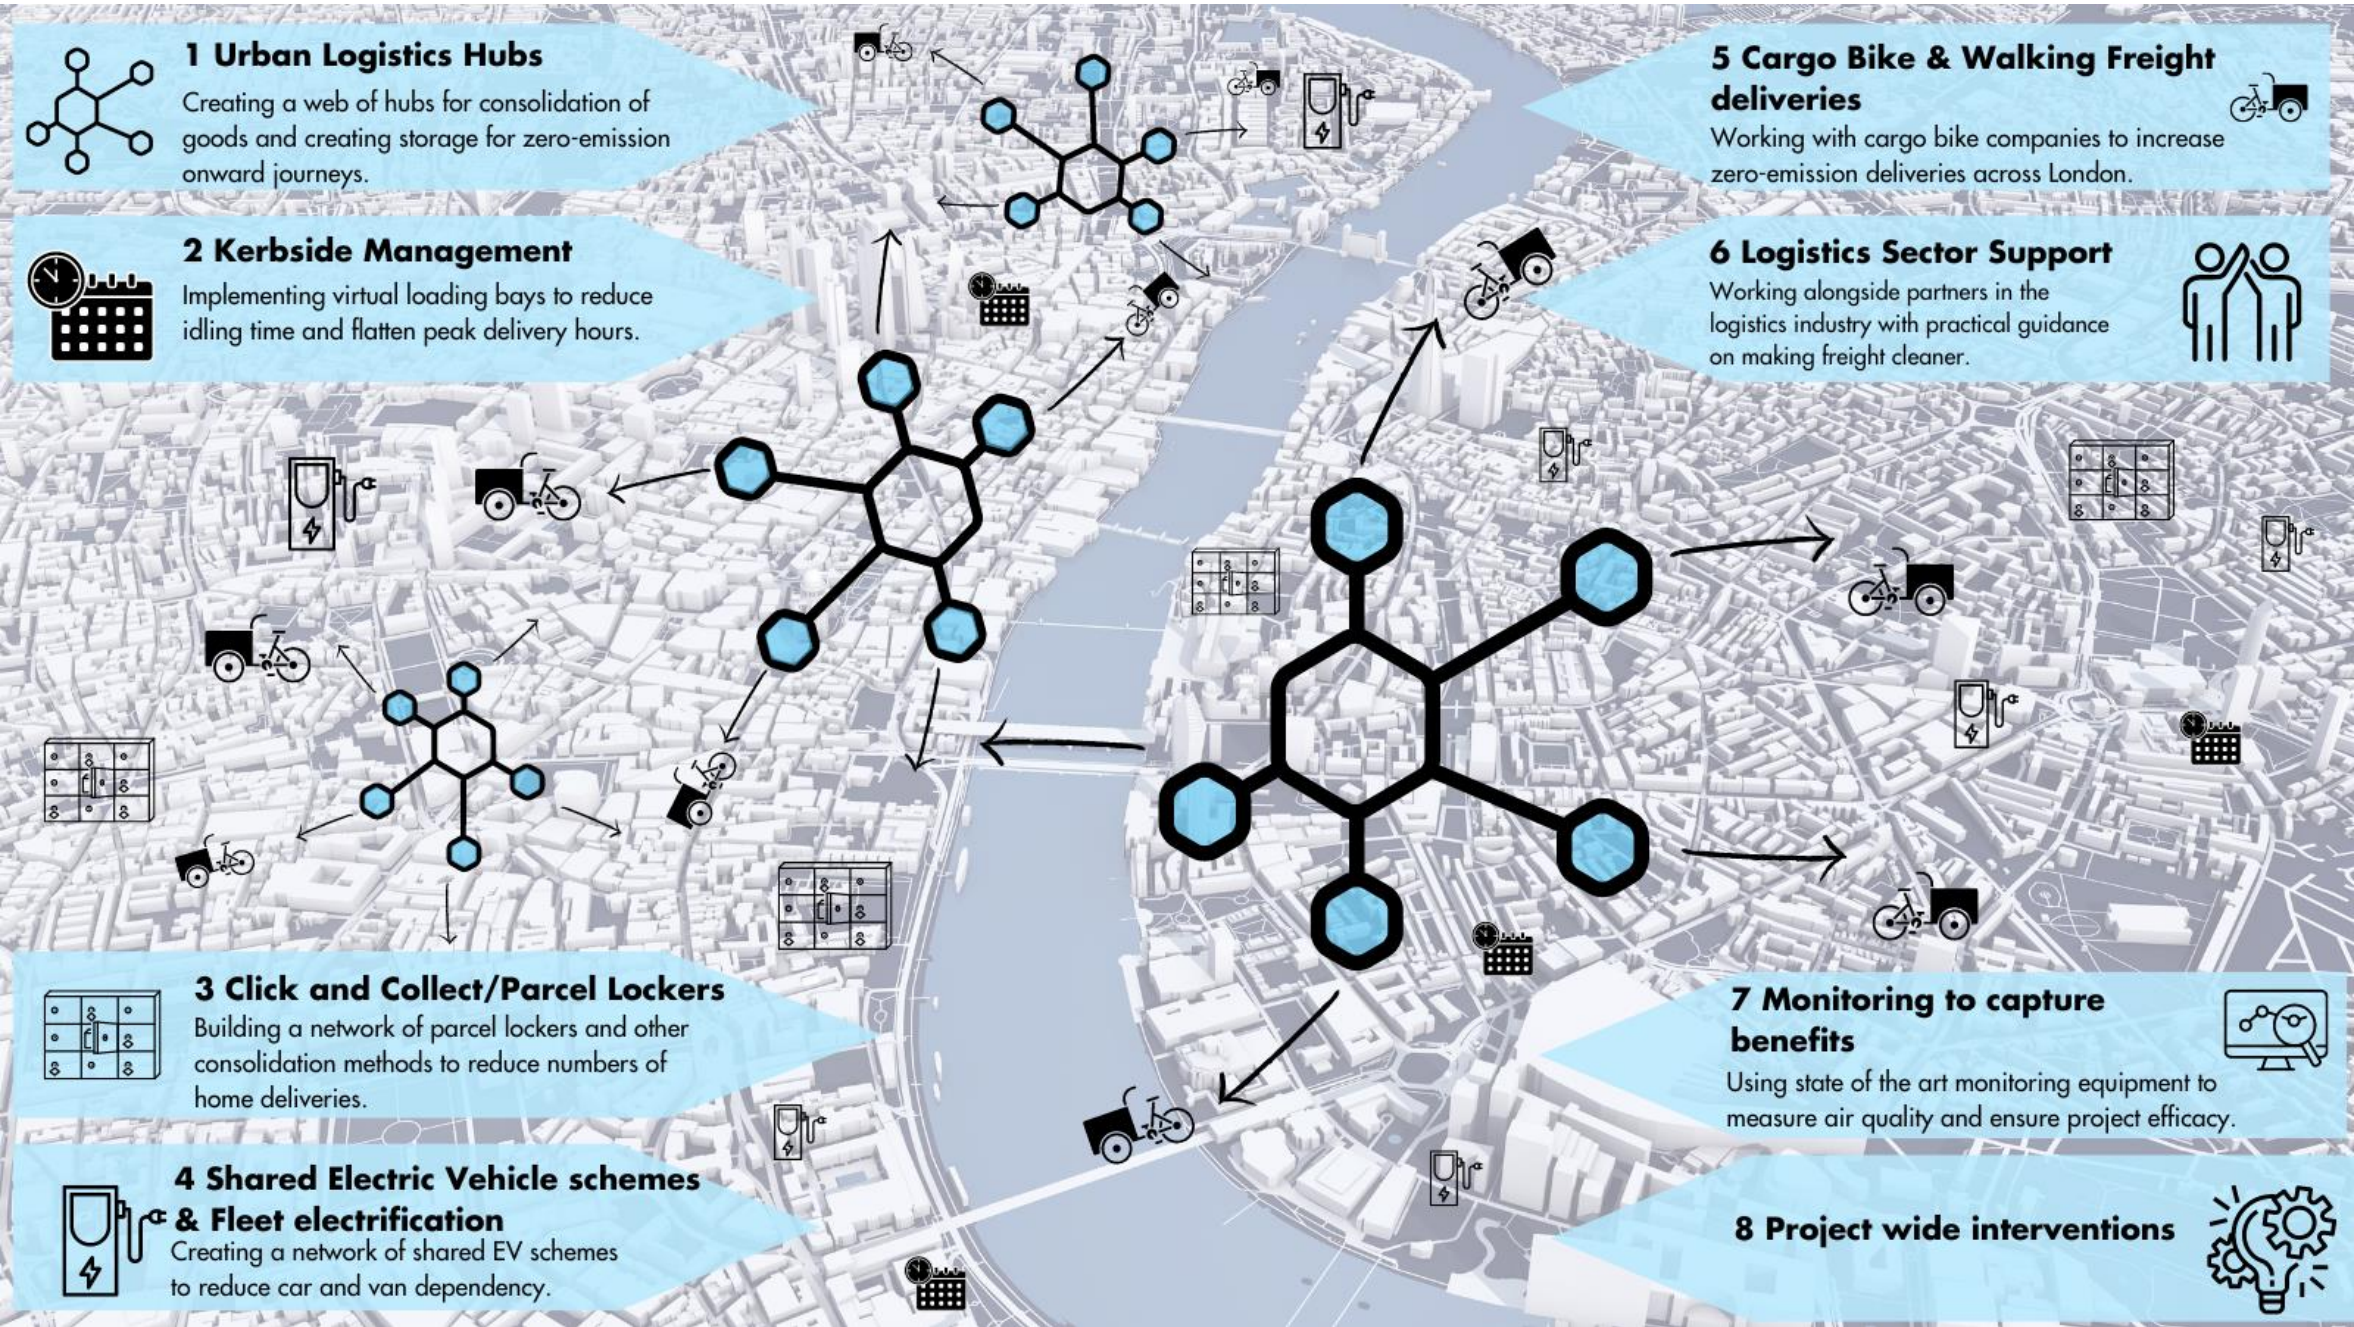

Agenda

- 4pm – Ross Phillips, Sustainable Transport Manager at Cross River Partnership: Introduction to Cross River Partnership
- 4:05pm – Peter, Lord Hendy of Richmond Hill, Chair of Network Rail: Waterloo Freight Hub
- 4:10pm – Sefinat Otaru, Project Manager at Cross River Partnership: Express Rail Freight and Potential Impacts at Waterloo and across London
- 4:20pm – Panel Discussion: How can river and rail solve air quality in London, alongside other zero emission delivery methods?

Smarter Greener Logistics

Smarter Greener Logistics (SGL) is a Defra-funded project led by Westminster City Council in collaboration with 26 project partners. The project aims to minimise the impact of freight on noise, air quality, traffic and pavement space in London by making improvements across 15 London boroughs and four London Business Improvement Districts (BIDs).

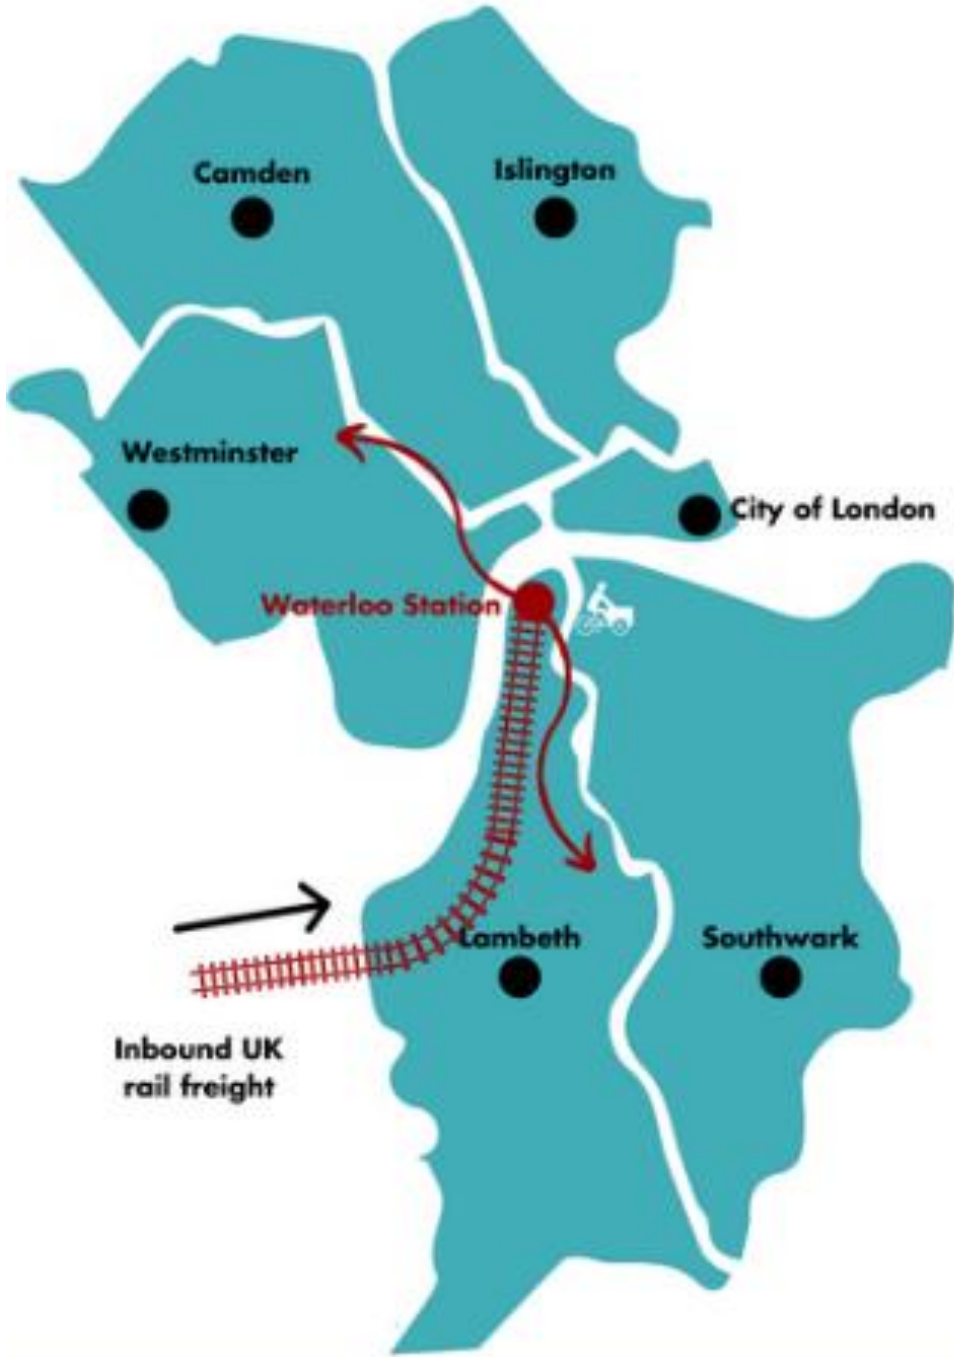

SGL forms part of CRP’s wider activities to encourage sustainable logistics across London. This includes the development of rail freight and walking freight initiatives, helping to improve London’s air quality and supporting CRP’s vision to make London a better place to live, work and visit.

Waterloo Freight Hub

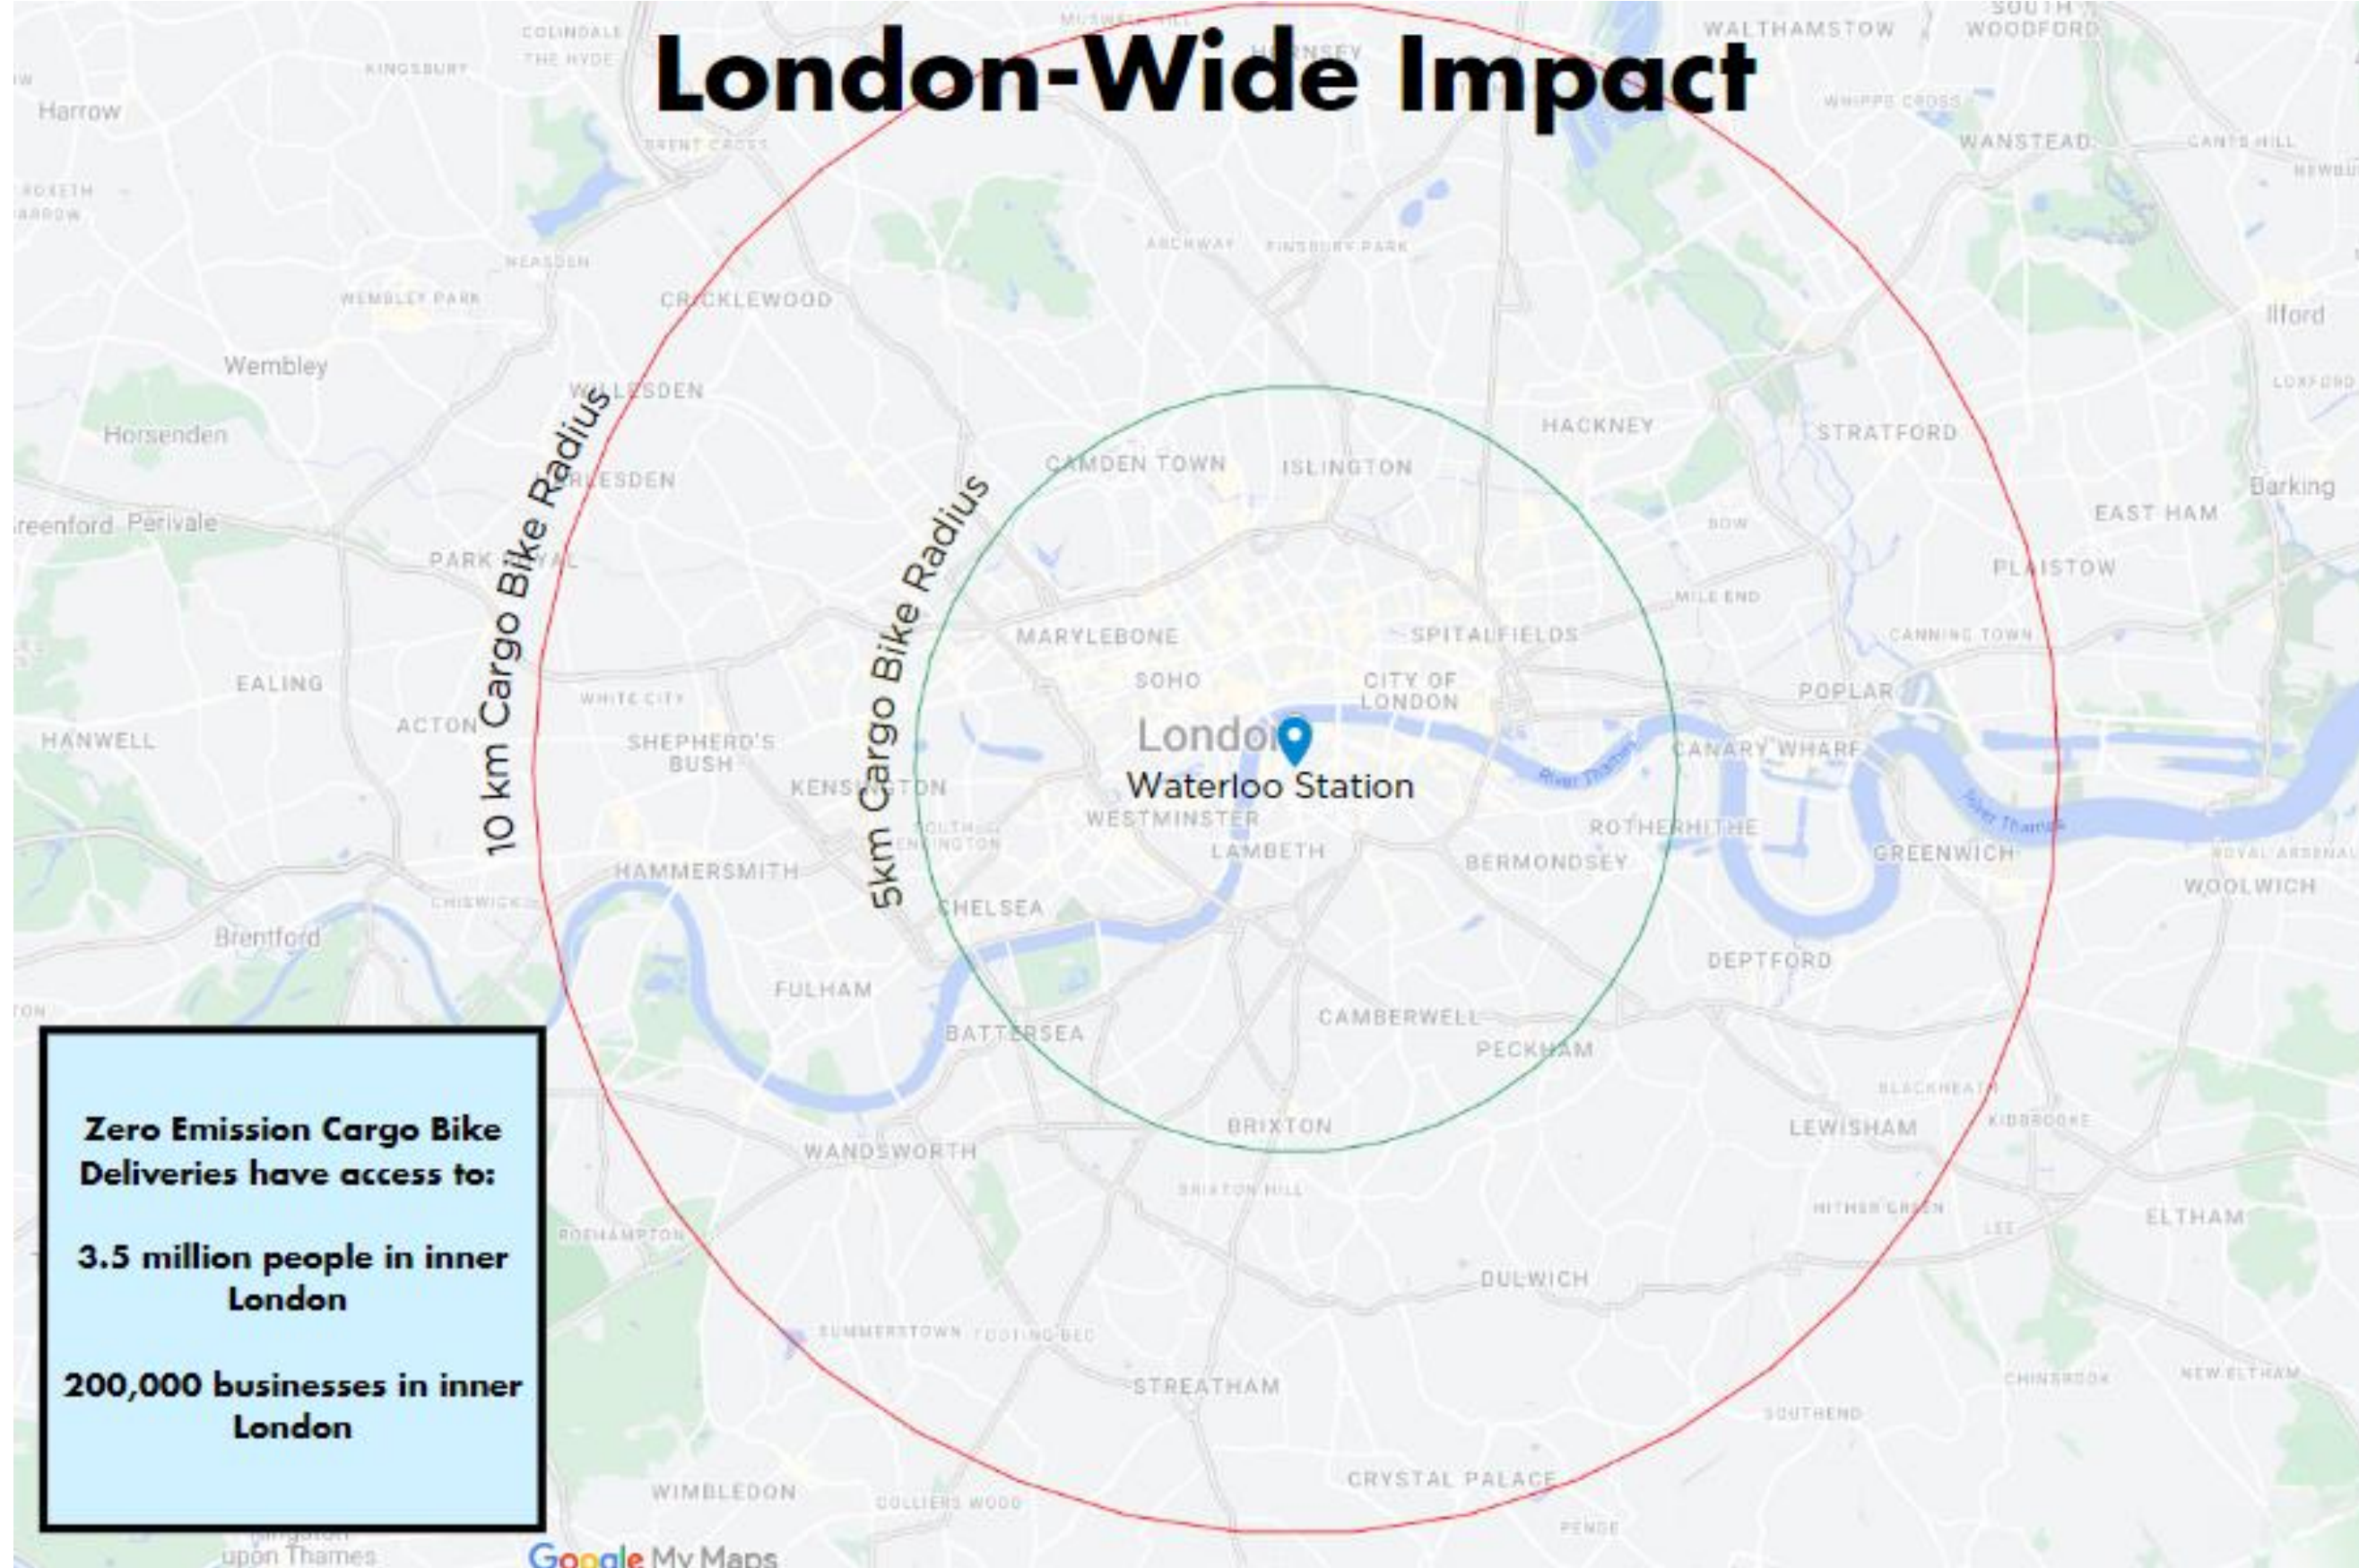

On track for sustainable logistics: Integrating Rail Freight into London's deliveries

Client: Cross River Partnership

Waterloo Hub Reports

Expert Freight Market Analysis, Steer

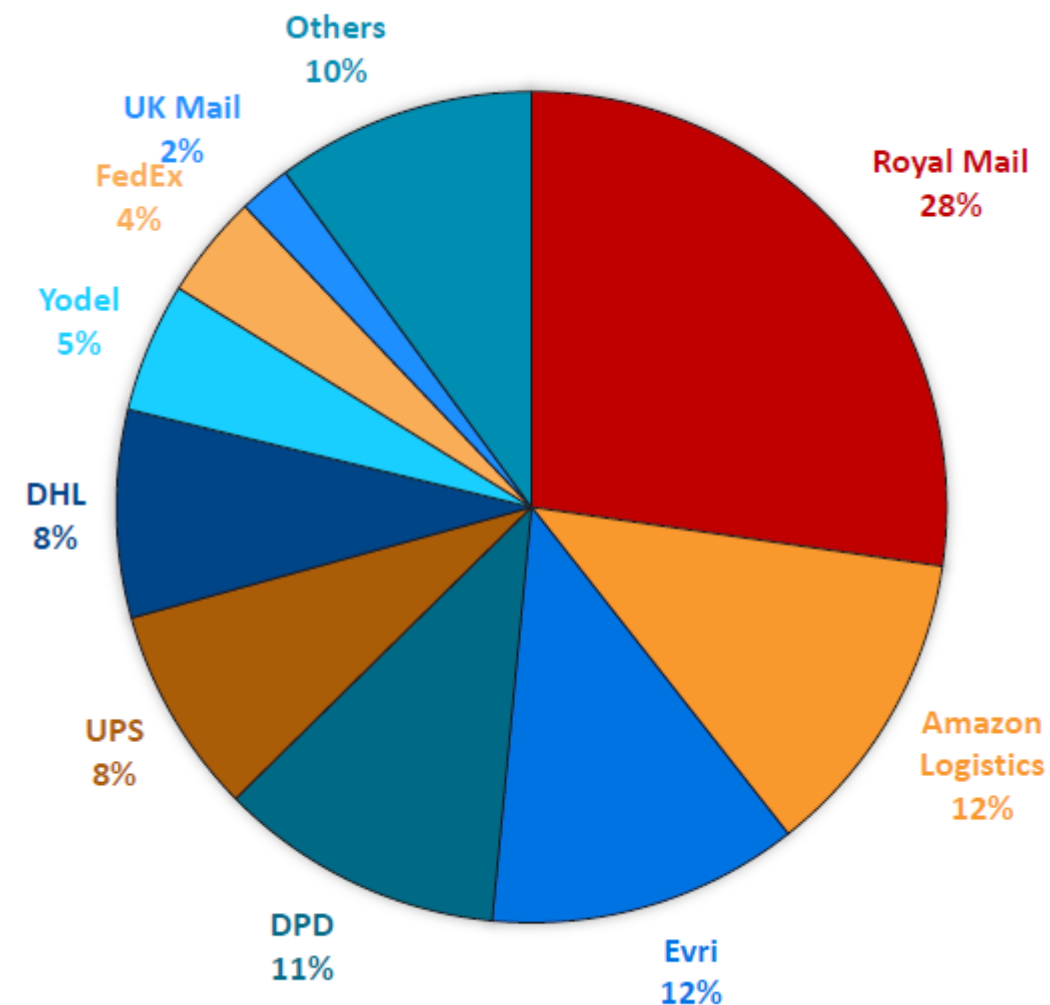

Waterloo Freight Hub Impact Study, Intermodality

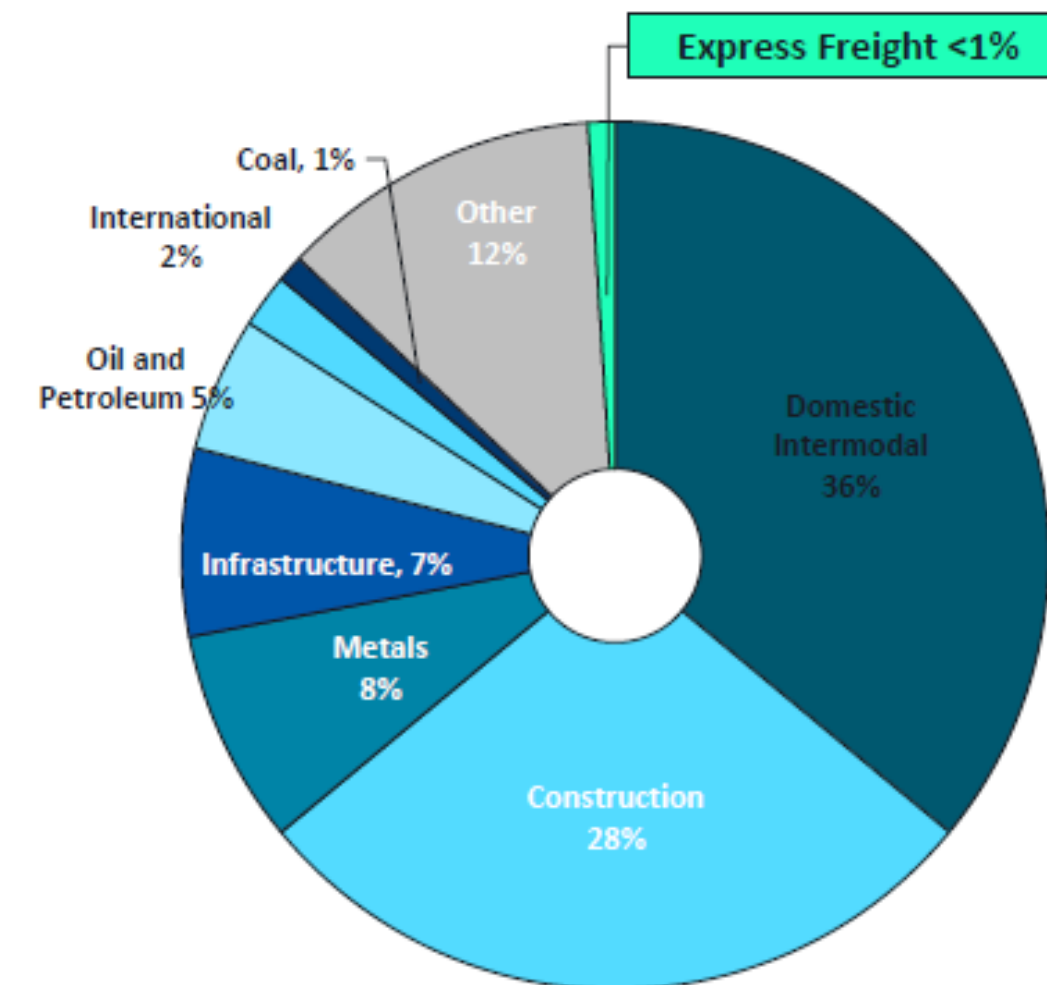

Waterloo Hub Reports – Express Freight Market Analysis

- Courier, Express and Parcel (CEP) freight and logistics market
- Rail freight and logistics market

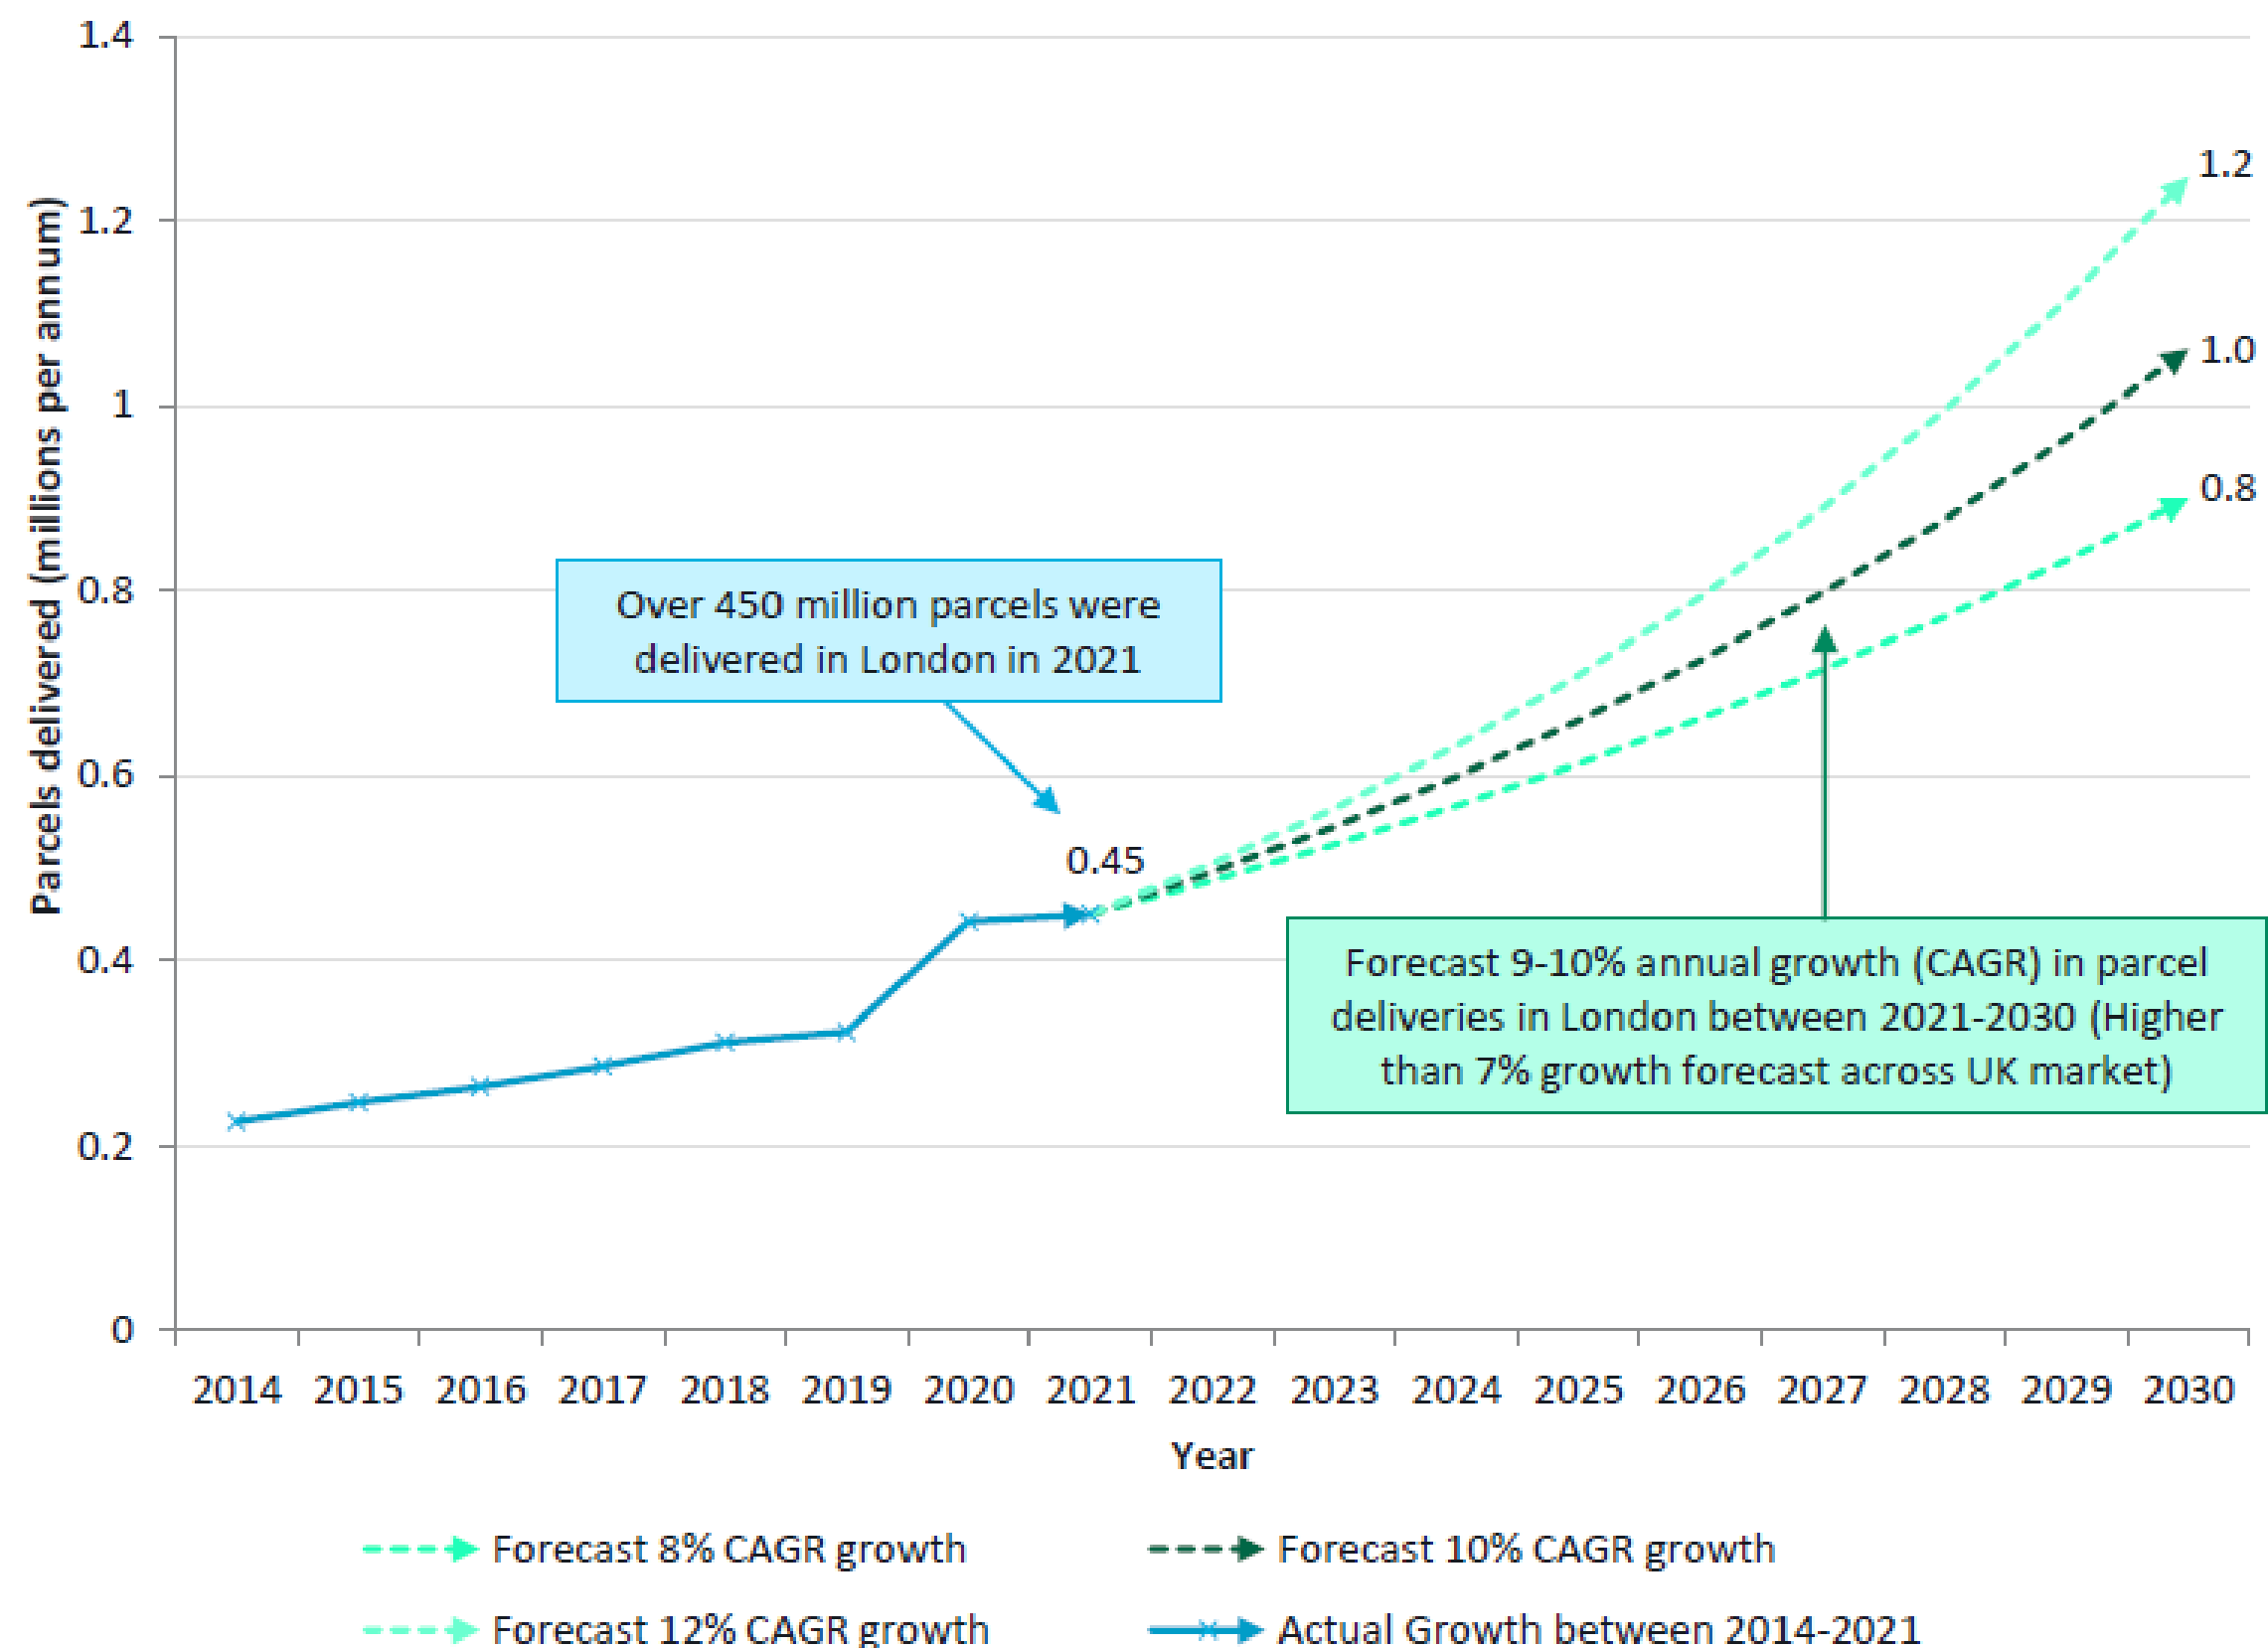

Leading UK courier service providers (GBRTT, 2021)

Freight moved by commodity (Office of Rail & Road, 2022)

By 2030, the London CEP market is expected to deliver over 1 billion parcels per annum. The rate of growth in the CEP market is projected to be faster than the rest of the UK, with London making up over 15% of the CEP by 2030.

Waterloo Hub Reports – Express Freight Market Analysis

Case Study 1:

- Midlands to London CEP road and rail-based operation

Case Study 2:

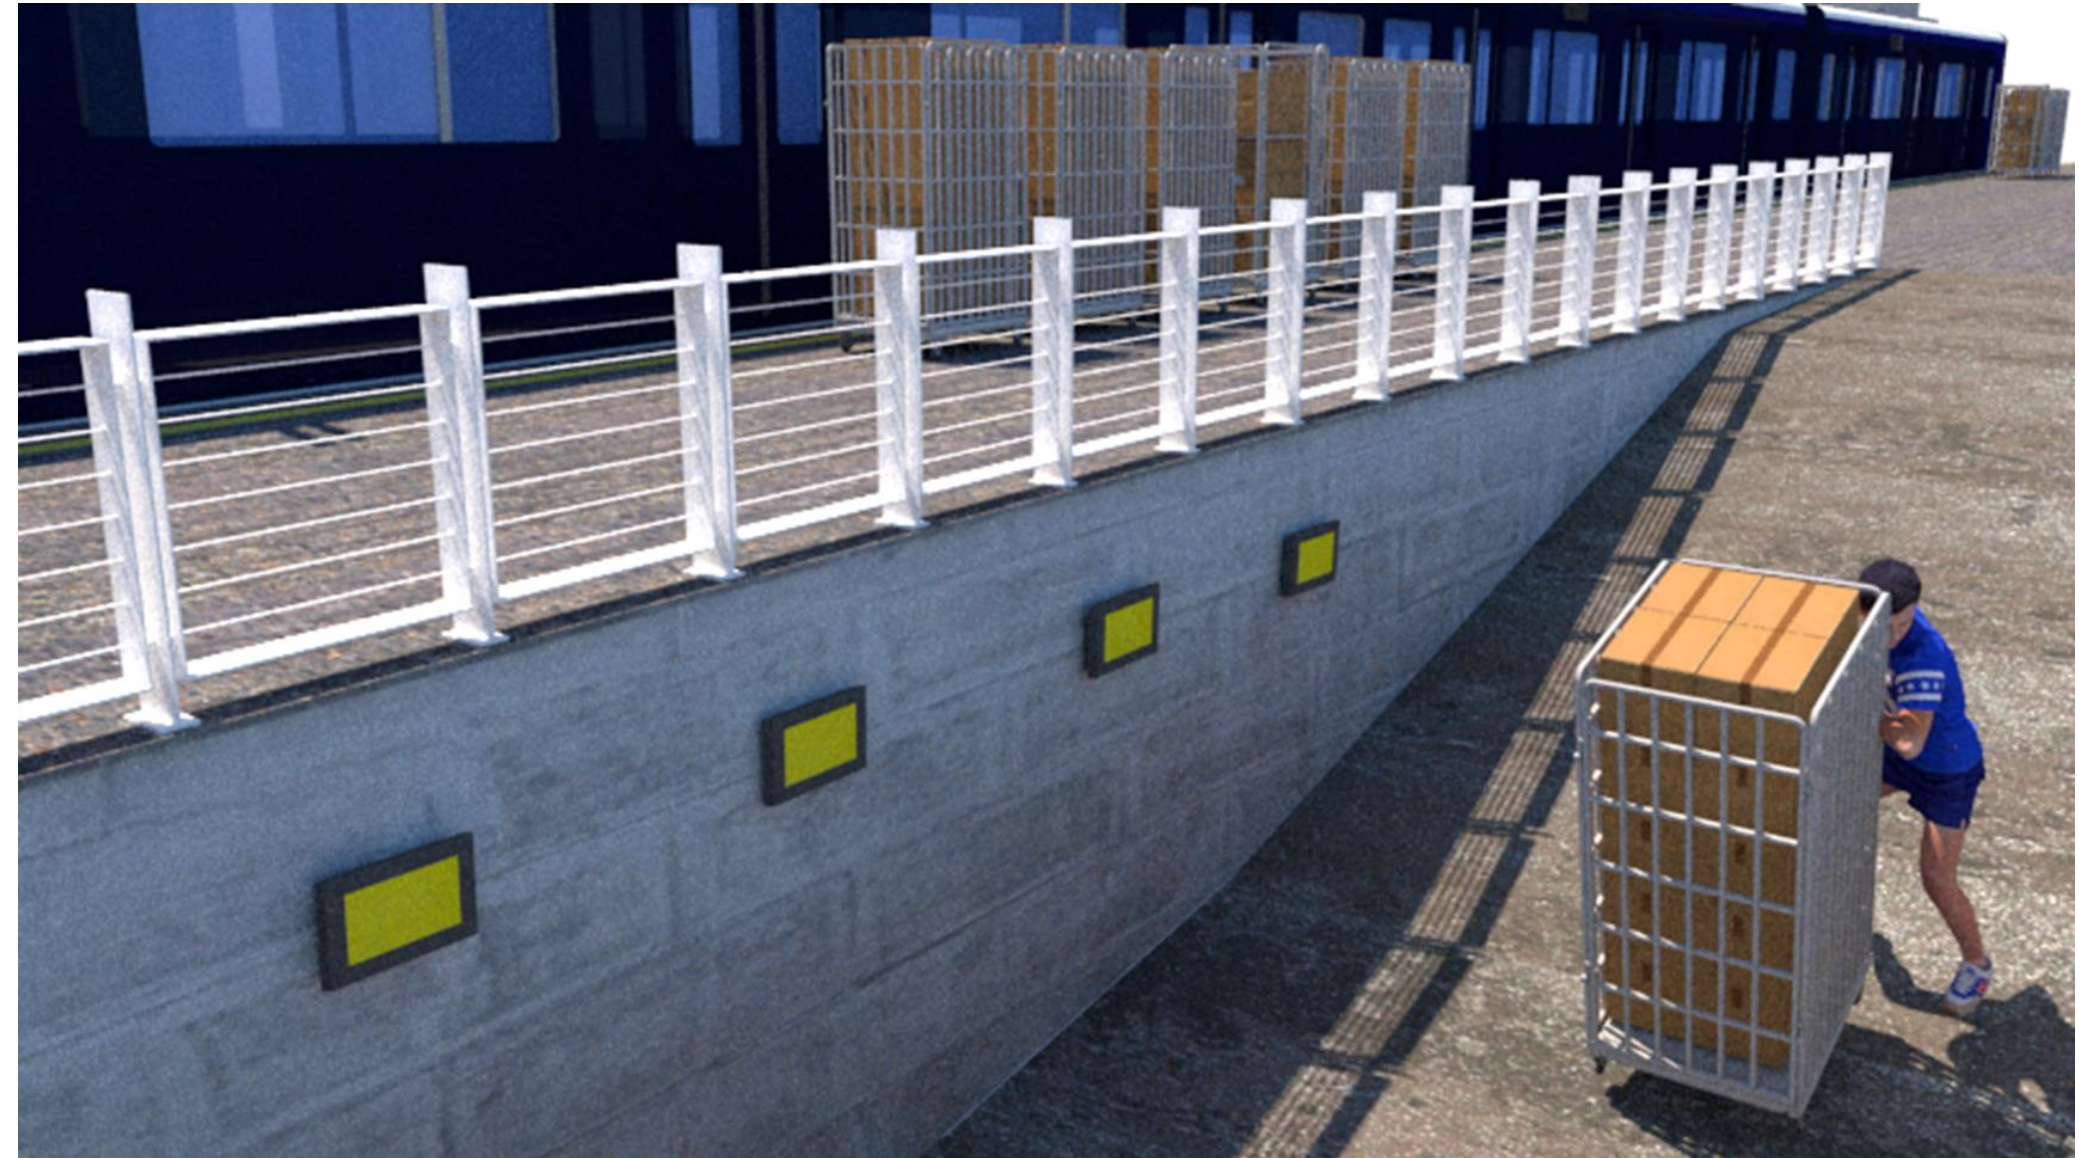

- Solent to London CEP road and rail-based operation

Waterloo Hub Reports – Express Freight Market Analysis

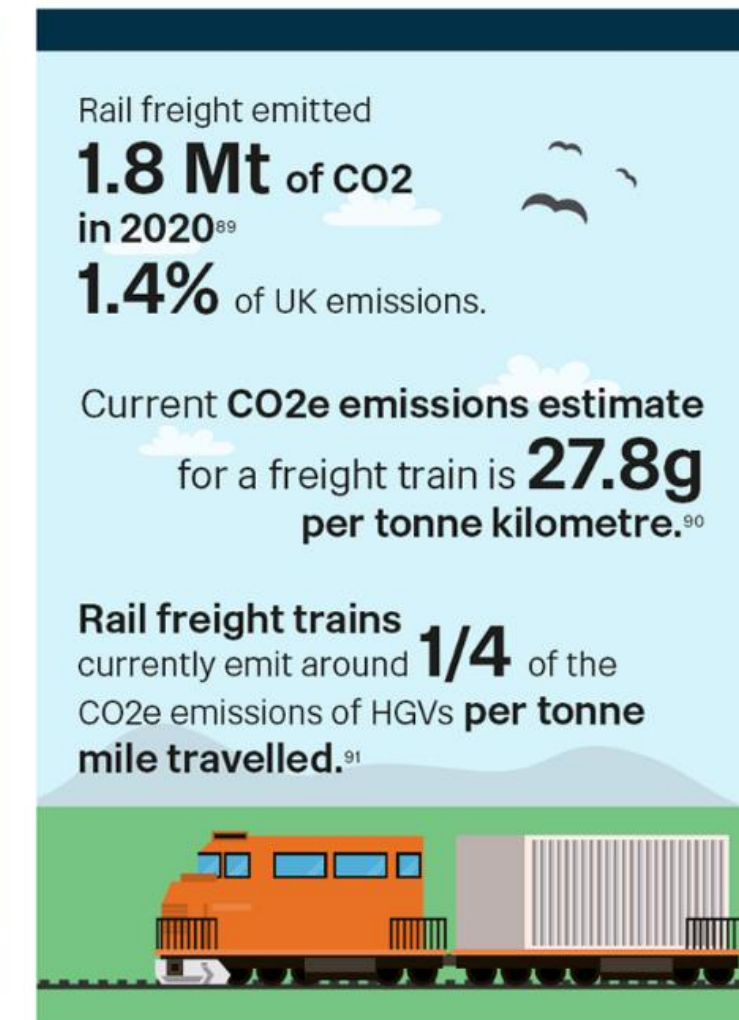

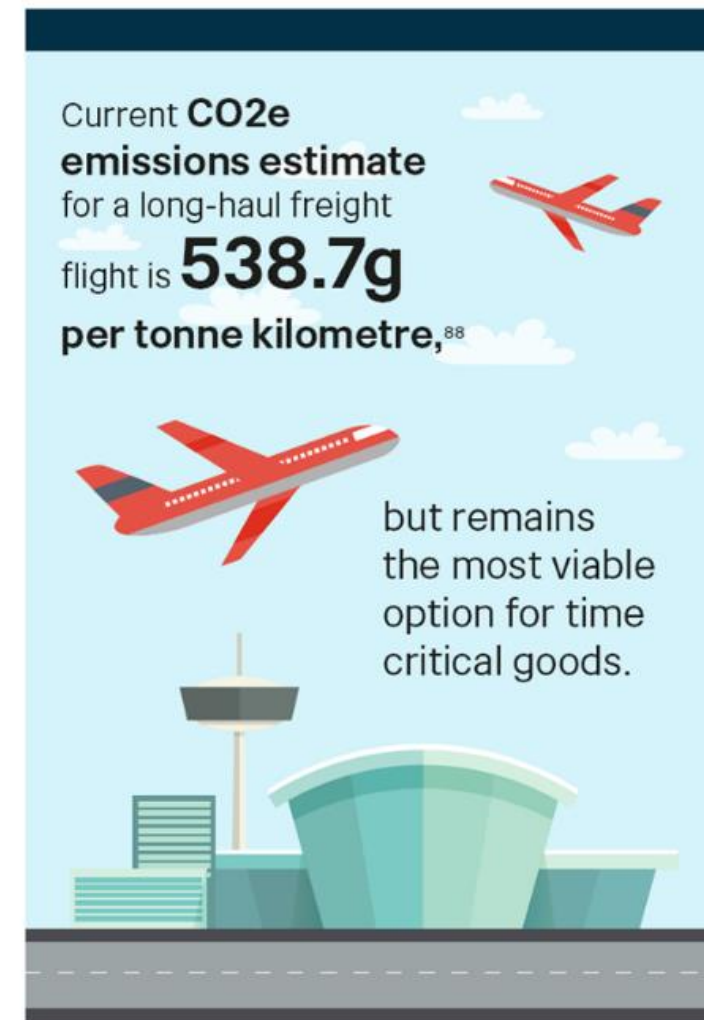

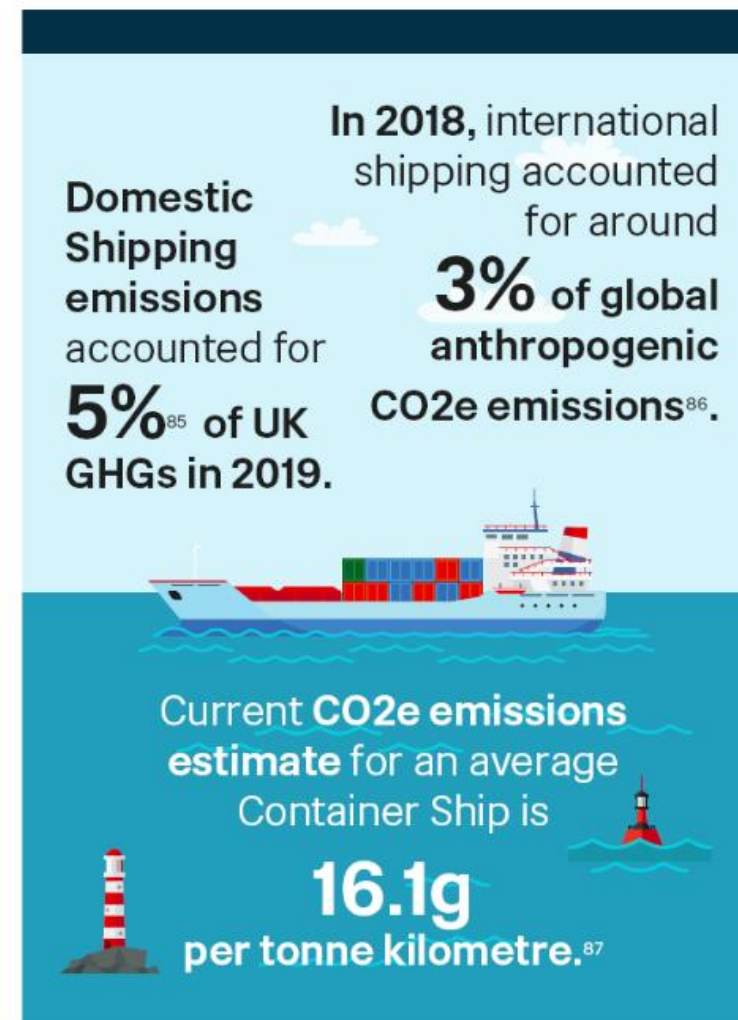

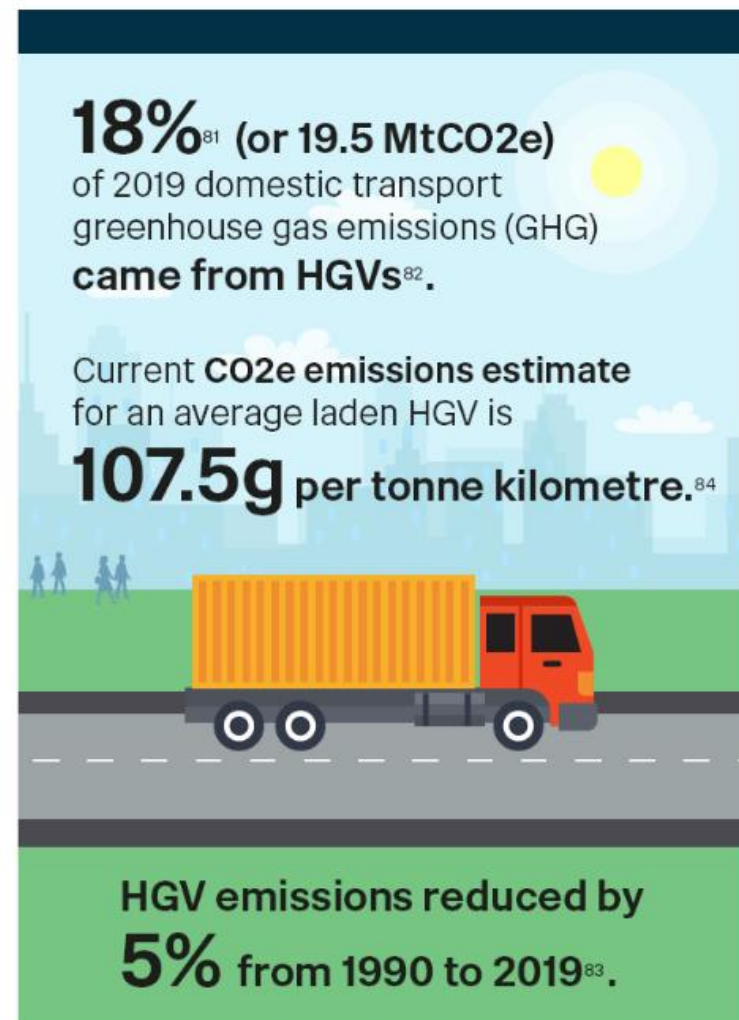

Recommendations

- Exploring rolling stock solutions
- Getting the commercial details
- Considering procurements and implementation requirements
