Celebrating 30 Years of CRP

2024 marks a major milestone for us here at Cross River Partnership (CRP) as we celebrate 30 years of delivering London's future together!

To celebrate CRP's history, growth and successes, we have launched a 30th anniversary edition of our logo to share throughout 2024.

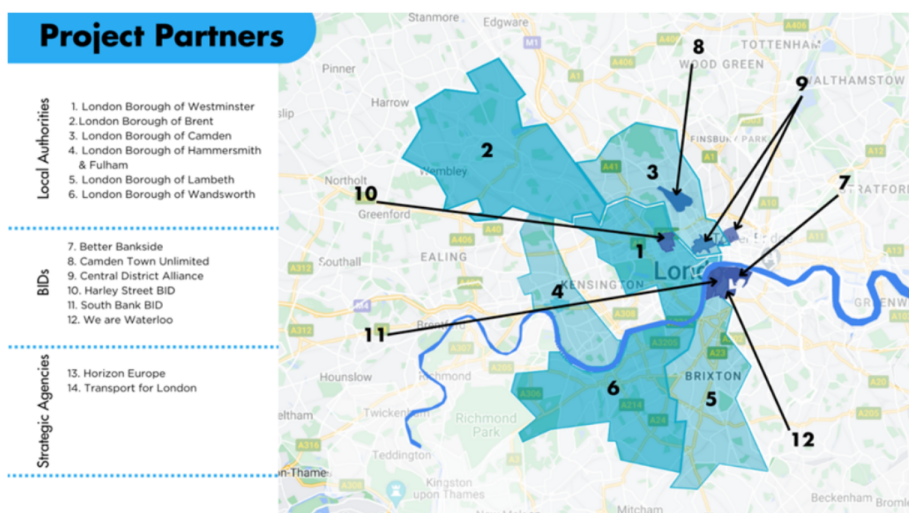

We are proud to be continuing to work collaboratively with a diverse network of talented people to deliver innovative solutions that make London fairer, greener and safer!

CRP currently work with [32 partner organisations](#) across London including business improvement districts, local authorities, and strategic agencies.

A huge thank you to all of our partners and funders that have supported us throughout our journey!

CRP's Collaborative Bid to the Mayor's Air Quality Fund

CRP has submitted a collaborative application - Healthy Streets Everyday II – to the [Mayor's Air Quality Fund Round 4](#) (MAQF4). If successful, the application will build on the

success of MAQF3-funded programme [Healthy Streets Everyday](#), led by Cross River Partnership (CRP).

CRP's Healthy Streets Everyday II application was supported by 14 partner organisations, including 6 Local Authorities, 6 Business Improvement Districts (BIDs) and 2 strategic agencies. The bid was led by [Westminster City Council](#), CRP's accountable body.

Healthy Streets Everyday II (HSEII) will address the issue of over-dependence on private vehicles, and the associated issues of poor Air Quality, Environment, Safety, Health, and Wellbeing. HSEII will realise a range of associated opportunities, including increased:

- Active travel
- Walking routes
- Permanent school streets
- Low emission transport infrastructure
- Green space / planting / rain gardens

For further information, please contact CRP Director, Susannah Wilks susannahwilks@crossriverpartnership.org

Micro Logistics Hub Updates

CRP have exciting insights to share regarding the micro logistics hub trials in both [Pimlico](#) and [Wandsworth](#), developed as part of the [Defra](#)-funded [Smarter Greener Logistics](#) programme:

- Since the [Pimlico](#) micro logistics hub trial began nine months ago, 4,186 kg of CO2 emissions have been saved. 15,141 g of NOx emissions have also been reduced which is equivalent to the NOx emissions of what 459 people emit in one day!
- The micro logistics hub in [Wandsworth](#) is four months old and is demonstrating impressive results. Last month, 6,000 flower deliveries were sorted at the hub, and 257 miles were travelled by cargo bikes!

Please contact CRP Project Manager Isidora Rivera Vollmer with any queries isidorariveravollmer@crossriverpartnership.org

SGL Update - Kicking off 2024!

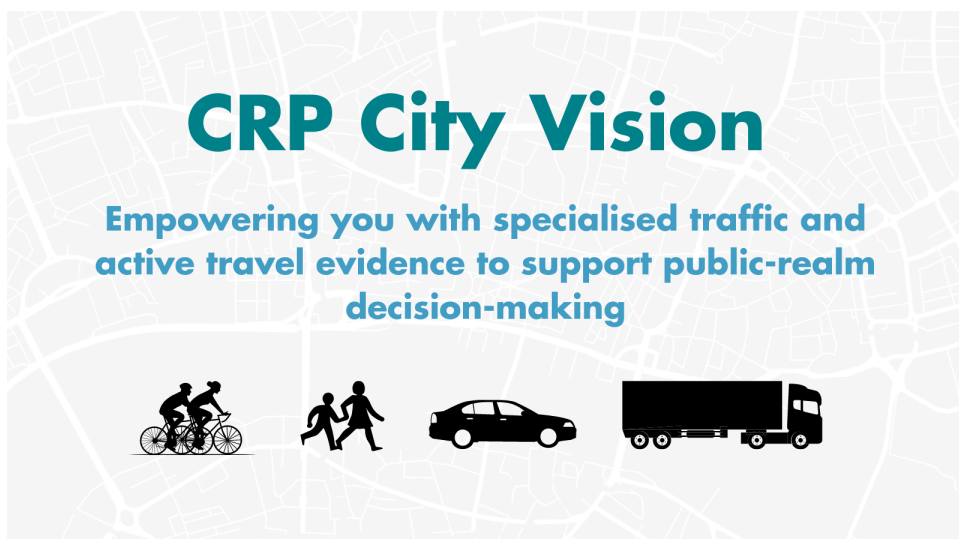

It's the start of a new year and there's already been lots happening with CRP's [Smarter Greener Logistics](#) (SGL) programme:

- CRP has been implementing a noise monitoring strategy for the [Waterloo Station Freight Hub Project](#).
- We've also been developing a brief for a detailed report on freight flows in London, which will support to identify areas suitable for urban logistics initiatives.
- Several site visits have taken place as part of the programme-wide [Virtual Loading Bay](#) (VLB) trial in collaboration with various SGL partners and [GRID Smarter Cities](#)
- Business engagement has taken place in Islington along Holloway Road to identify potential host businesses for a new [Our Bike](#) scheme in the area.

For more information about the project, please email CRP Senior Programme Manager Fiona Coull fionacoull@crossriverpartnership.org

CRP Continues to Support Boroughs and BIDs with Insightful Data

Evidence has become critical to create healthy streets and neighbourhoods. [Cross River Partnership](#) (CRP) have been busy throughout December and January, supporting partners with our insightful traffic and active travel reporting to evidence of how spaces, streets and neighbourhoods are used.

- CRP have continued to work with [South Bank BID](#) and [VivaCity](#) on understanding traffic levels and emissions in the local area.
- Through [Smarter Greener Logistics](#), CRP have also been working collaboratively with the [London Borough of Southwark](#) to understand traffic around [Cycleway 4](#), before the cycleway has been fully installed.

If you are interested in finding out whether CRP can support you with impactful and insightful traffic and air quality reporting, please email CRP Sustainable Transport Manager Ross Phillips rossphillips@crossriverpartnership.org

CRP Welcomes Two New Interns

CRP are delighted to welcome two new Zero Emissions Interns to the team who will be supporting across the [Smarter Greener Logistics \(SGL\)](#) programme.

On working at CRP, Ilyas said: “I am thrilled to have joined CRP, everyone has been extremely welcoming and easy going. Throughout university I have learnt about sustainability and air quality in theory, and I am now looking forward to finally put what I have learnt into practice on the varied workstreams with the team.”

On working at CRP, Josephine said: “I am happy to be working with such an encouraging and collaborative team. I look forward to contributing to various sustainability projects at CRP, as my interests align with many of the ongoing and past projects at CRP. I have had a great start and feel very supported by the team at CRP. I am excited to continue working with CRP through collaboration with stakeholders, making a true impact towards a more sustainable future.”
