## JUST STREETS in the Netherlands

CRP is pleased to inform you that the [Just Streets](#) consortium had a successful site visit to Amsterdam earlier this month. We visited Amsterdam to see street interventions that fostered fairer, safer, more inclusive streets.

Amsterdam was followed by the three-day [Urban Future Conference](#) in Rotterdam, which brought together 2,000 representatives from across the globe to share how they transformed their cities, including lessons from successes and failures.

CRP look forward to hosting our Just Streets European partners in London this November!

For more information on the Horizon Europe funded Just Streets project contact CRP Project Manager Sefinat Otaru, [sefinatotaru@crossriverpartnership.org](mailto:sefinatotaru@crossriverpartnership.org).

## Kicking Off Healthy Streets Everyday II

Last month, we were joined by our 14 project partners and the [Greater London Authority](#) to officially launch [Healthy Streets Everyday II](#), a 3-year programme promoting active travel and green infrastructure under the Mayor's Air Quality Fund.

Healthy Streets Everyday II will build on the success of MAQF3-funded programme [Healthy Streets Everyday](#), led by Cross River Partnership (CRP). CRP is very grateful to the [Mayor Of London](#) for this latest round of MAQF4 funding.

During the kick-off meeting, each participating local authority, strategic agency and Business Improvement District had the opportunity to share their plans for the next three years and discuss what they are hoping to get out of the programme.

We're thrilled about the innovative projects and collaborations that lie ahead!

For more information contact CRP Project Lead for Healthy Streets Everyday II, Ross Phillips at [rossphillips@crossriverpartnership.org](mailto:rossphillips@crossriverpartnership.org)

## Exciting Updates on Waterloo Freight Hub

## Sustainable Freight at Waterloo Station

Over the past few months, the [CRP team](#) has been busy working on securing permissions for the [Waterloo Freight Hub](#) to deliver a 6-Month Road-Fed Trial from a small space in the Waterloo undercroft.

After positive conversations with partner organisations [Network Rail](#), [Department for Transport](#) and [London & Continental Railways](#), the Department for Transport have agreed for the 6-month project to go ahead. CRP is grateful for the support of the stakeholders on this project.

The next steps will be to prepare the small space in the undercroft for the project, before the 6-Month Trial kicks off in the coming months.

For more information on the Waterloo Freight Hub, please contact Ross Phillips, Sustainable Transport Manager, on [rossphillips@crossriverpartnership.org](mailto:rossphillips@crossriverpartnership.org)

## SGL June Update – Focus on Kerbside Management

**Kerbside Management Trial**

This month has seen a lot of progress for CRP's [Smarter Greener Logistics](#) (SGL) programme, particularly with our [Digital Kerbside Management Trial](#). The trial uses [Grid Smarter Cities](#) Virtual Loading Bay technology to dynamically manage the kerbside, helping to improve congestion and air quality in the local area.

Here's a quick overview of what's been happening:

- We've launched a [Virtual Loading Bay](#) in the [City of London](#) on Watling Street.
- We've also identified three sites in the [London Borough of Richmond Upon Thames](#) that could be suitable for trialling virtual loading bays.
- Finally, our two virtual loading bays on the Cut in [London Borough of Lambeth](#) are starting to see more usage. CRP has been working with the council to encourage uptake by local businesses and their suppliers, so it's great to see more deliveries taking place in the bays!

You can find out more about the trial and how to book the Virtual Loading Bays [here](#).

## Knowledge Exchange with Visitors from Sweden

In early June, the CRP team were joined by visitors from Stockholm and Gothenburg to share knowledge and learnings from projects on freight and air quality that have been implemented in London.

The visit was coordinated by [C40 Cities](#) and the [Greater London Authority](#), and will support Stockholm in promoting and rolling out opportunities for zero emission freight in the city.

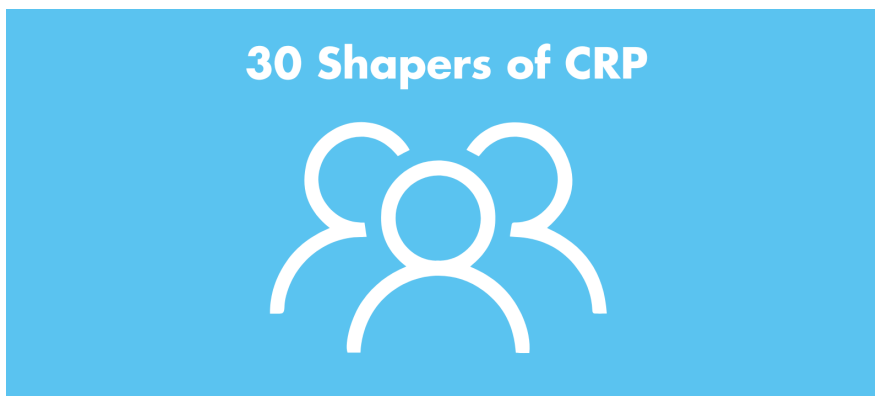

CRP presented on the [Clean Air Logistics for London](#) and [Smarter Greener Logistics](#) programmes, and held informative discussions on river, rail and cargo bike trials that have taken place over the past couple of years, with a particular focus on business engagement.

For more information, please contact Ross Phillips, Sustainable Transport Manager, on [rossphillips@crossriverpartnership.org](mailto:rossphillips@crossriverpartnership.org)

## CRP 30 Years - 30 Shapers of CRP Campaign

As part of celebrating [30 years of CRP](#), we have been hearing from 30 individuals who have shaped CRP significantly during its long history.

The 30 Shapers campaign showed the global reach of CRP, with contributions from as far afield as New Zealand and Australia.

The campaign has flowed seamlessly into a campaign celebrating the Future of CRP, and the ways that the current [CRP team](#) members are all contributing to that.

Keep your eyes peeled for more #CRP30Years campaigns running over the coming months!

If you would like to find out more about CRP, past, present or future, please contact CRP Director [susannahwilks@crossriverpartnership.org](mailto:susannahwilks@crossriverpartnership.org) or visit the CRP website: [www.crossriverpartnership.org](http://www.crossriverpartnership.org)
