JUST STREETS Clean Air Routes Campaign

Our second [JUST STREETS](#) campaign, Clean Air Routes, is now live!

The campaign highlights the adverse effects of air pollution and how we can all adopt small changes to make our journeys healthier and more sustainable!

As part of the campaign, the [CRP Team](#) will be sharing their favourite clean air walking routes and green spaces in London!

Funded by [Horizon Europe](#), JUST STREETS will be transforming streets in 12+ cities across Europe! The JUST STREETS project will focus on (re)developing street space for active mobility that are both, sustainable and inclusive for all citizens.

CRP 30 Years – The Tool for the Job!

Celebrating 30 Years of Innovative Online Tools

As part of our celebrations of [30 Years of CRP](#), this month we are promoting all of our innovative on-line support tools that we have developed over the years to support our [CRP Partners](#) on their sustainability journeys.

They are all available on the CRP website and include CRP's [Urban Logistics Hub Map](#), [Thames Directory](#), [Clean Air Tool](#) and [Transport Emissions Calculator](#)

Have a look now if you haven't done so already! They have been designed to de-mystify and to provide clear, accessible information to get us all started on real, meaningful action.

For further information, or to add any extra information, please contact CRP Project Manager Sefinat Otaru sefinaotaru@crossriverpartnership.org

Two Virtual Loading Bays Launch in London Borough of Richmond

CRP are excited to announce that 2 [Virtual Loading Bays](#) are now live in the London Borough of Richmond. The 2 Virtual Loading Bays are located in Sheen Lane, Mortlake

and The Quadrant, Richmond and will be available to book, free of charge, for the trial period to the end of 2024.

Virtual Loading Bays are dedicated spaces that can be pre-booked to deliver goods by participating operators with the Grid Kerb Delivery booking application.

The Virtual Loading Bays form part of CRP's [Defra](#)-funded Kerbside Management Trial and are being delivered in partnership between [London Borough of Richmond](#), [Grid Smarter Cities](#) and [Cross River Partnership](#). The trial uses Grid's Virtual Loading Bay technology to dynamically manage the kerbside and aims to improve congestion and air quality in the local area.

Find out more about the trial and how to book the Virtual Loading Bays here: <https://gridsmartercities.com/smarter-greener-logistics-crp/>

Smarter Greener Logistics Update and Match Funding Reminder

July marks the end of Q5 of CRP's [Smarter Greener Logistics](#) (SGL) Programme and we'll soon be reporting all the progress that has been made so far to [Defra](#). This has included:

- Finalising contracts for the Waterloo Freight Hub
- The identification of a suitable site for the Islington Micro Logistics Hub
- Data analysis for the City Soil Lab circular food waste scheme

However, a big part of our quarterly reporting requires input from SGL Partners on their match funding activities. Therefore, this is also a little reminder for any SGL Partners to please complete and return your match funding templates by COP **Friday 19th July**.

For any queries or support completing your match funding template, please contact Fiona Coull, CRP Senior Programme Manager fionacoull@crossriverpartnership.org.

CRP Partners with EMSOL for Wandle Way Sustainability Project

CRP have partnered with [EMSOL](#), a leading provider of real-time emissions monitoring and analytics solutions, and [London Borough of Merton](#), to address the pressing issue of pollution and dust emissions from an industrial estate in the Wandle Way area of Mitcham.

The six-month project will leverage EMSOL's advanced emissions monitoring technology to assess the severity of the air quality and noise pollution problem in Wandle Way.

The project has been funded through CRP's [Defra-funded Smarter Greener Logistics](#) (SGL) programme.

For more information please contact Ross Phillips, CRP Sustainable Transport Manager, rossphillips@crossriverpartnership.org.

Seeking New Operator for Wandsworth Micro Logistics Hub

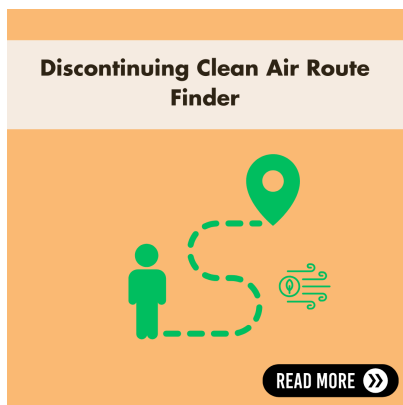

In August 2023, CRP launched a six-month micro logistics hub trial in the [Southside Shopping Centre Car Park](#), managed by [APCOA](#), in the [London Borough of Wandsworth](#). Delivered through CRP's [Defra-funded Clean Air Logistics for London](#) and [Smarter Greener Logistics](#) programmes, the hub, managed by [Decarbon Logistics Solutions](#), aimed to support low-emission last-mile deliveries.

During the trial, fresh flowers were delivered from outside London overnight by e-van, then sorted at the hub before being distributed. Read the hub case study [here](#).

Since concluding in February, the courier has been renewing their license on a monthly basis while evaluating long-term use of the hub.

The courier has now vacated the hub, potentially making it available for another operator! Would you be interested? For more information please contact CRP Project Manager Isidora Rivera Vollmer: isidorariveravollmer@crossriverpartnership.org
