Smarter Greener Logistics - October Update

It's been a busy month for the CRP team, with updates right across the programme workstreams and all across London. This has included:

- Launching 2 new shared cargo bikes in the [London Borough of Islington](#) through the OurBike scheme.
- Sharing knowledge and learnings with 3 additional SGL Express Case Studies including [Parcel Locker Installations & Requirements](#) and [Air Quality and Noise Monitoring in Merton](#). Read CRP's case studies [here](#).
- Delivering another round of reporting for the [London Borough of Southwark](#) to understand the impact on cyclists and freight traffic of the recent installation of Cycleway 4 around Lower Road.

CRP also shared plenty of the freight and logistics work, particularly river freight related work, with Deputy Mayor for Environment & Energy at the [Greater London Authority](#), Mete Coban, through a site visit through Vauxhall in early September.

We were also delighted to visit [London Borough of Lambeth's](#) showcase School Street at Henry Fawcett Primary School with Councillor Rezina Chowdhury – thank you for the inspiration!

Healthy Streets Everyday II: Promoting the Projects

This month, CRP has launched its [Healthy Streets Everyday II](#) - Promoting the Projects campaign!

Running across CRP's social channels, the campaign will share the exciting projects being delivered by our 14 project partners as part of this Mayor of London's air quality funded programme.

Here's what's coming: Public realm improvements to make walking and cycling easier and more accessible, greener public spaces for everyone to enjoy plus cleaner air by reducing car traffic and promoting active travel!

Our mission: to make your streets healthier, safer, and more sustainable for everyone!

Keep an eye on CRP's [LinkedIn](#) and [Twitter](#) this month as we share our partners exciting projects!

OurBike Launches in Islington

CRP are excited to announce that we have launched two new OurBike community cargo bikes in the [London Borough of Islington](#).

[OurBike](#) is an app based community cargo bike share scheme. The new bikes are hosted by [Absolute Print](#) in Archway and [LC Cycleworx](#) in Nag's Head and can be used by businesses and residents at a subsidised rate for local deliveries, travelling with children or transporting larger items as a more sustainable transport mode.

Both bikes are stored near their host business. Find the exact locations here: [Absolute Print OurBike](#) and [LC Cycleworx OurBike](#)

CRP's cargo bike share interventions are part of [Smarter Greener Logistics \(SGL\)](#), a Defra-funded project led by [Westminster City Council](#) in collaboration with 25 project partners.

Just Streets - Upcoming London Site Visit

CRP is looking forward to welcoming their [Just Streets](#) European Partners to London next month!

Partners will undertake site visits to see transformative projects led by CRP's newly appointed London delivery partners, [Camden Town Unlimited](#), [Harley Street Business Improvement District](#) and [London Borough of Lambeth](#).

CRP recently announced the exciting projects to be delivered by their three London partners through the Just Streets programme. From introducing walking routes, to street accessibility measures and the creation of safer and more pleasant environments outside of schools, read the full press release [here](#).

These interventions have been designed to be delivered over the period up to June 2025. They will have long-term benefits for Londoners, contributing to safer, more accessible streets as the city's population grows.

For more information, please contact CRP Project Manager, Sefinat Otaru sefinatotaru@crossriverpartnership.org

Creating Just Streets With Londoners

We are thrilled to see the progress of our [Horizon Europe](#) project, [Just Streets](#), in London.

Over the past few months, our London delivery partners, [London Borough of Lambeth](#), [Harley Street Business Improvement District](#), and [Camden Town Unlimited](#) have made significant strides in implementing street interventions to create more equitable and safer streets.

Take the latter, for instance. Camden Town Unlimited is working to promote active travel in the bustling part of London by encouraging walking through "Heritage Trails" between Camden and King's Cross Station. They have engaged in several co-creation sessions with the public to gather diverse perspectives and ideas, including discussions on what the trails should encompass and what the wayfinding should entail.

CRP 30 Awards

Here at CRP we have done some digging around and have discovered that over our lifetime we have won at least 30 Awards with our [CRP Partners!](#)

This is definitely something to be celebrated! Watch out for our socials campaign running throughout this month to remind you all of what partnership working has achieved over the years. Follow [#CRP30Awards](#) across Linked In and Twitter / X channels to see more.

The awards are extremely wide-ranging, spanning everything from the Millennium and Golden Jubilee Bridges, to CRP's successful [Recruit London](#) programme, to [Greening the BIDs](#) and multiple [Freight](#), [Electric Vehicle](#) and [Energy Systems](#) innovations.
